WE'RE ON THE GREEN...

GREEN PACKAGING

With nearly 500 product lines in our accessory offering, we realise the kind of impact that using plastic was having on the environment. In 2019, we took the decision to eradicate plastic entirely from our accessory range and have since fed this into other areas of the business with a 'zero plastic first' mindset when packaging products.

In some cases, we're able to offer biodegradable products where possible with our Bamboo tees being the first to adopt this new way of packaging.

GREENER PRODUCTS

It's one thing to adopt a zero plastic policy with our packaging, but we have now shifted our thinking as to how we can create products in a more sustainable way. Replacing plastic tees with bamboo or biodegradable options is one of our key initiatives and we are working hard to bring to market these options in the near future.

Furthermore, whilst we understand plastic is incredibly durable and in some case ideal for some of our products, we are entering a new era where product design is considered from a new perspective, exchanging single use for sustainable and continuing to serve quality and value as we always have.

GREEN DEVELOPMENT

In May 2022, we entered a new and exciting partnership with Edinburgh Napier University to support their research into the possibility of converting wood and bamboo sawdust into usable material for construction, packaging and most importantly to us, golf tees.

With our extensive knowledge of golf tee production, we are advising on the project in a supportive capacity to help with product development. As industry leaders in golf tee production, we feel it is pertinent to be involved in the development of new materials, processes and ways we can contribute to a greener future for the sport we love.

Our previous plastic accessory 'blister' packaging.

Accessory packaging that is 100% recyclable and uses far less space in transit.

ERADICATING PLASTICS

In 2019, we took the decision to eradicate plastic packaging entirely from our accessory range. We are now in a position where 90% of our current accessory range boxes are smaller than the previous 'blister' plastic packaging.

But not only have we reduced the amount of plastic, but we have also reduced the amount of 'air' that needs to be shipped. Fuller containers that are imported without wasting space has now been made possible with our cardboard packaging.

90%

of our current accessory range boxes are smaller now that they are not made of plastic.

0.11m³

is the average size of an outer packaging box, equivalent to saving 0.06m³ on every box containing cardboard packaging.

950

the amount of outer boxes that a 40ft shipping container can hold, vastly reducing the amount of actual containers needed to transport product.

PLASTIC TEES TURN OFF...

In July 2022 we made the decision as a business to stop manufacturing plastic tees. The Masters Golf brand has been synonymous with the supply and production of plastic tees made here in the UK, but as we near the end of our plastic tee stocks, we are embarking on a new and exciting journey where sustainability will be our primary focus.

Already we are seeing the benefit of using bamboo as our primary tee, but future developments into biodegradable materials is well underway.

See the diagram (right) for our sustainable tee production which we hope to launch in 2023.

Plastic Tees will no longer be part of the Masters 24/7 range.

The biodegradable PLA material takes a sustainable journey which is illustrated here.

MAKE YOUR RETAIL OPERATIONS FLY BY MAKING THE SWITCH TO BAMBOO AND OFFER YOUR CUSTOMERS THE SUSTAINABLE CHOICE.

As part of our attempt to provide customers with more sustainable choices, we've introduced both standard and graduated bamboo tees to our range of tees.

Made from sustainably sourced bamboo, coloured with water based inks and fully biodegradable – these tees are a great alternative to plastic. What's more, they are packaged in a fully biodegradable bag meaning that they can be added to the greenkeepers compost heap when finished with!

BAMBOO WHITE

SUSTAINABLE TEES

We're replacing our own branded tees from wood to bamboo in attempt to provide our customers with more sustainable choices.

Made from sustainably sourced bamboo, these tees are not only a great green story but are fully bio-degradable and a great alternative to wooden tees making them better for the course, and the environment. Comes in 100% biodegradable packaging.

CLUBS & CLUB SETS

GX1 RELOADED

DESIGNED WITH PLAYABILITY IN MIND, THE GX1 RANGE ARE GREAT PACKAGE SETS FOR THE CASUAL GOLFER OR A NEW STARTER.

GX1 Clubs

The clubs have been specifically designed to offer good control, distance and flight. Naturally forgiving, the clubs also help build player confidence and skill level. Available in mens and womens sets with graphite or steel shaft options.

GX1 Bags

The GX1 club sets come with matching and well specified, light weight stand or trolley bags with plenty of storage and easy to handle whether being carried or on a trolley.

CAVITY BACK IRONS

The cavity behind the centre of the club face provides more perimeter weighting and makes these irons easier to hit.

OVER SIZE HEADS

More forgiving on those off-centre shots these club heads help improve confidence in less experienced players.

OUR BRANDS

Our extensive knowledge of the Golf Industry has allowed us to develop a number of unique and innovative in-house brands catering for every sector in golf retail, offering incredible value and excellent margins.

Masters 24/7 is the primary selling vehicle for the business throughout the UK and Europe. It is the 'mothership' brand and the central point from where, you the customer, come to for both product and service. You'll find more detail below about our in-house brands.

In 2017 we made the first steps as a company to distinguish between our service & logistics brand (Masters 24/7) and Masters Golf. The latter is our specialist in-house golf brand that offers a comprehensive range of equipment and accessories. Masters Golf is all about product for purpose and has unbeatable value when it comes to price and quality.

MKids and Golfway are our specialist junior golf product ranges offering progressive playing equipment for young golfers. Recognised for quality and playability throughout UK and Europe, MKids is a great way for youngsters to begin their journey in the game with a range of features to support their development.

The iCart brand offers a range of high specification bags and trolleys as well as accessories. iCart products are produced with a specification of materials and features making it one of the leading golf trolley brands on the market.

Level 4 is our specialist customisation brand offering a huge range of golf products from brassware to headwear that can be personalised with a customer's own brand. We embellish on-site, covering a range of print or embroidery products, making Level 4 a unique reliable option for personalisation customers.

TourDri is the brand that is designed for tackling the elements. Built on the simple principle that products and people need protecting from the harshest of conditions on the course, TourDri products are engineered to respond effectively and never fail. With a range of wet weather equipment from umbrellas to waterproof bags, TourDri is a course favourite.

ClubCraft is everything you'll need for club building and repair. It's our new signpost brand for offering an extensive range of products dedicated to running a technically capable and successful workshop, as well as a huge choice of grips, shafts, tools and machinery.
